revenues and expenditures

## FOREWORD

The 1969 SUMMARY OF FINANCIAL REPORTS OF MUNICIPALITIES is the authoritative source of municipal financial data in Ontario. This issue of the SUMMARY is presented for the first time in two conveniently sized volumes.

The 1969 SUMMARY is quite similar to the 1968 issue. Changes in legislation, reporting procedures and presentation techniques have produced some minor alterations and additions. The net effect is a better publication with more meaningful data.

I trust municipal officials and other users will find the SUMMARY Volumes useful in making comparative analyses with either 1969 data per se, or in combination with year earlier statistics. The few cases where comparisons are not possible have been indicated.

Again I thank the many municipal Treasurers and Auditors whose efforts make the SUMMARY possible. However, I also ask for an increased effort from all responsible parties in filing returns correctly and promptly. This will enable the Department to expeditiously produce the SUMMARY and other publications for your use and benefit.

A handwritten signature in blue ink, appearing to read 'W. D. Smith', is positioned above the title of the Minister of Municipal Affairs.

# INTRODUCTION

The 1969 SUMMARY OF FINANCIAL REPORTS OF MUNICIPALITIES presents accurate and meaningful financial information on Ontario municipalities.

This first volume, the contents of which are indicated on the preceeding Title Page, presents the Commentary and complete Summary. The second one contains a brief Introduction and Summary limited to the data in it.

The reporting format substantially repeats that adopted for 1968 data. Accordingly the reader is able to make numerous comparisons for the first time.

In the pursuit of more up-to-date and realistic information, certain modifications in reporting procedures and summarization techniques have been introduced. The following comments concern changes, from last year's format, to data in this volume.

## ANALYSES OF POPULATION, HOUSEHOLDS AND ASSESSMENT

An 'Analyses of Population Ages' showing the percentages of each municipality's population within four groupings — '4 Years and Under', '5-19 Years', '20-64 Years' and '65 Years and Over' has been introduced. This data increases the significance of population figures and gives more meaning to the other data.

## ANALYSES OF TAX ROLL

For increased clarity, the 'Gross Tax Roll' i.e. the sum of all items on the roll before allowing for the Residential Property Tax Reduction, has been added. To provide further meaning to taxation data, factors on 'Residential and Farm Taxation' have been introduced. Thus, for each municipality, calculations showing taxation 'Per Household' and as a 'Percent of Total Taxation' have been prepared. (The corresponding ratios, based on data in the 1968 issue, can be readily calculated.) These factors facilitate comparisons of the 'Residential and Farm' Taxation per household between municipalities as well as the portion such taxes comprise of total municipality revenue. Such ratios and comparisons are useful background in reviewing other aspects of municipalities' operations.

## STATEMENTS OF EXPENDITURE

Exhibit a few minor alterations. Data on the 'Sanitation And Waste Removal' function has been condensed by merging sundry 'Unclassified items' with the very sizeable 'Garbage Collection and Disposal', 'Recreation and Community Services' and 'Community Planning and Development' have been compacted to show simply a total for each of these two functions.

The new item 'Financial and Other' shows two subtotals — 'Interest, Discounts, Allowances and Reserves' and 'Other'. Full details on the first sub-total are now more

suitably situated within the 'Analyses of Arrears' in Volume 2. The second sub-total 'Other' includes data which in 1968 was unspecified, namely 'Financial Expenses—Unclassified' and 'Other'.

'Local Contributions — Secondary Education' now includes contributions for schools for retarded children. This change became effective at the start of 1969. (The Secondary Schools and Boards of Education Act R.S.O. 1960, Sec. 103 (1)(d).)

Other comments essential to the reader are:

- (a) The Regional Municipality of Ottawa-Carleton, which became operative on January 1, 1970, supplies and distributes water, provides sewage works, roads, health, welfare, homes for the aged, hospitals, planning, emergency services, and also issues debentures for all the area municipalities.

The results of the first year of operations of municipalities within the area appear on pages 7-12 inclusively in both Volumes. The consolidation of its affairs are patterned on the updated and simplified format adopted for the Metropolitan Toronto Area in 1968. Accordingly the levies paid to the two upper-tier municipalities appear within the 'Analyses of Tax Roll'. In turn, the revenue from such levies and the corresponding expenditures are boxed for ease of identification in those respective statements.

- (b) Counties cannot be compared with other municipalities. Accordingly they are treated separately in the Commentary and Summary. All data for Counties appears in Volume 1, pages 205-211.

- (c) Annual Reports of municipalities continue to be closely scrutinized to ensure valid comparisons. The few cases where comparisons are not possible are noted within the Commentary and in tabular matter.

- (d) Some 51 local municipalities have not filed reports in time for publication. This omission is regrettable, but not statistically significant. This data, as well as the statistics on the final year operations of the Counties of Lincoln and Welland, will be published in the 1969 SUPPLEMENTARY. The new publication, to be released annually will contain 'late-filed' data in a format identical to the main 1969 SUMMARY.

- (e) The Commentary features a new series of Plates which show important facts in relative terms. The absolute data, on which the Plates are based, is contained in Tables immediately following the Commentary.

## HIGHLIGHTS

1969 Population rose to 7,073,682 persons. The increases, some 170,000 persons, or 2.45%, were the largest of the decade.

1969 Taxation revenue was \$1,309.4 million, up 12.0% over 1968. This increase is after allowing for the Tax Reduction Program which reduced eligible tax payers' burdens by \$121 million.

Provincial grants reported paid to municipalities and school boards equalled 94.2% of 1969 taxation.

Total 1969 revenues of all reporting municipalities were \$1,826.3 million, up 11.3%. The increase in such revenues was slightly less than the rise in expenditures. Consequently, municipalities produced a negligible surplus versus \$14.1 million in 1968.

Contributions to education, which come from taxation, accounted for 41.6% of municipalities' total revenue. This is to be compared with 40.1% in 1968.

- All reporting municipalities indicate a total capital expenditure of \$315.6 million during 1969, down 4.6% from 1968. Some \$148.5 million of such expenditures still needed to be permanently financed at year end.
- Year end taxes receivable were \$99.5 million, or 8.2%, of 1969 tax rolls. Comparable figures for the year earlier were \$88.4 million and 7.5%.
- Long Term Debt associated with the activities of local municipalities and their enterprises was \$1,933.7 million at year end.

# COMMENTARY

## ANALYSES OF POPULATION, HOUSEHOLDS AND ASSESSMENT

### 1. Population

Ontario contains some 11.7% of Canada's area, 35% of the country's population, 37% of its workforce and about 40% of its Gross National Product. Most of Ontario's people live and work around the western end of Lake Ontario; along the 100 miles of lakeshore stretching from Oshawa to the Niagara Peninsula. This population belt is about 25 miles deep. The province's very important primary industries are located well to the north of this concentration of population.

PLATE 'A', Top half, compares trends in Ontario's population versus that of Canada as a whole, and Canada excluding Ontario, over the past decade. In 1960, 1963 and each year thereafter, Ontario's population exhibited above average growth for the country as a whole. The Population of a municipality, as used in this publication (except where noted) means: the total population permanently residing in the municipality at the time of the 1969 assessment — less those resident in institutions, defence establishments and Indian reserves. Assessors are required, by statute, to take an annual census of the population as part of their duties. It should be remembered that the definition refers only to municipally organized areas. Nevertheless, some 95% of the total estimated population of Ontario is found in municipalities.

TABLE 1 ONTARIO POPULATION 1959-69. (Page XXII) shows a population of 7,063,682 for 1969. The increases over 1968, some 170,000 persons, or 2.45% in relative terms, were respectively the largest of the decade. (TABLE 1 also shows population for the province, estimated annually by the Dominion Bureau of Statistics. This source's figure, at June 1, 1969 was 7,452,000 persons).

PLATE 'A', bottom half, compares trends in population within larger Ontario municipalities versus that in remaining municipalities. It is to be seen that larger municipalities have collectively exhibited a higher rate of growth in all but one year

### PLATE 'A'

#### POPULATION TRENDS 1959-1969

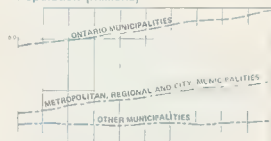

##### CANADA

Population [millions]

##### ONTARIO MUNICIPALITIES<sup>1</sup>

Population [millions]

<sup>1</sup> DATA ADJUSTED TO INCLUDE AREA POPULATION OF THE REGIONAL MUNICIPALITY OF OTTAWA-CARLETON THROUGHOUT THE PERIOD. REGIONAL MUNICIPALITY CAME INTO EXISTENCE JANUARY 1, 1969

#### Annual population increases — %

#### Annual changes in population — %<sup>1</sup>

during the decade indicating a continuing trend towards urbanization. The Summary (Page XXVII) shows 4,395,963 persons, or 62.1% of the total, reside within these larger municipalities. Adjustments for changes in status would further widen the divergence in growth patterns. The creation of the Regional Municipality of Ottawa-Carleton has been allowed for, as noted, to avoid significant distortion.

# PLATE 'B'

## ANALYSIS OF POPULATION (%) BY MAIN AGE GROUPS

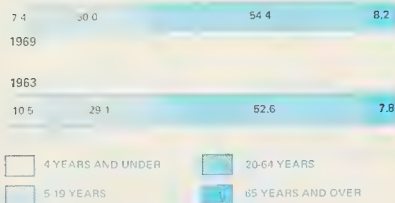

PLATE 'B' shows that the older segments of the population i.e. '20-64 Years' and '65 Years and Over', have both increased in their relative numbers between 1963 and 1969. TABLE II ANALYSIS OF POPULATION BY MAIN AGE GROUPS (Page XXII) shows these two groups, as well as the '5-19 Years' category, have all shown sizeable increases in absolute numbers during the same period. However, the youngest age group, '4 Years and Under' has actually dropped by over 70,000, to 526,000 persons, during this period.

The Ontario Statistical Review of 1969, published in June, 1970 by the Department of Treasury and Economics, describes this trend towards a more aged population using other pertinent indicators. The Ontario birth rate fell consistently from 26.2 persons per thousand in 1958 to 17.4 in 1968. (The fractional recovery to 17.6 in 1969 may indicate the start of a reversal, but it will be some years before this reversal, assuming it continues, starts having a material effect). The death rate also fell throughout the period, from 8.4 per thousand in 1958, to 7.7 in 1968. In 1969 a further drop to 7.5 is noted.

During the period under discussion, the 'Natural Increase' factor (births less deaths) has dropped from 17.8 persons per thousand in 1958 to 10.1 in 1969. Or, in absolute terms, from 105,000 persons in 1958 down to some 75,000 persons in 1969. As the population rose in 1969 by some 170,000, immigration must have accounted for at least 95,000 persons (plus a further number to offset the unknown level of emigration). Immigration has, starting in 1966, become the prime contributor to population growth in Ontario. Analyses of immigration figures indicate a high working age component.

Ontario's population is increasing relatively quickly and becoming more urbanized. Further, its age distribution is changing. These fundamental trends will continue to alter the scope and volume of public services and the priorities attached to them.

## 2 Households

A Household is defined, by both The Assessment Act and The Residential Property Tax Reduction Act, as a single family dwelling unit — or a portion of a building which is a domestic establishment — consisting of two or more rooms in which the occupants usually eat, sleep and prepare meals.

# PLATE 'C'

## ANALYSIS OF HOUSEHOLDS

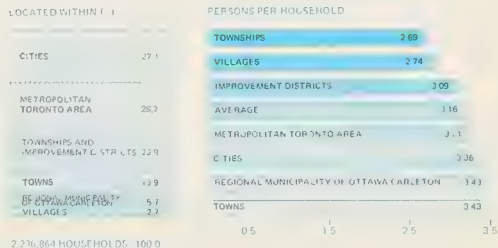

PLATE 'C', left portion, indicates the larger municipalities, as referred to above, account for 59.5% of the total 2,236,864 households. TABLE III 1969 HOUSEHOLDS, (Page XXII) shows the number in each type of municipality.

For all municipalities there were on average 3.16 persons per household in 1969. This showed little change from the 3.14 figure of the previous year. All three groups of larger municipalities were above the 3.16 figure

Households information is available as part of the Residential Property Tax Reduction Program. Seasonal residents, where qualifying, are included as households under the Program. Thus, analyses involving municipalities with sizeable numbers of seasonal households should recognize this distorting factor. In particular 'Persons Per Household' can be distorted downward because population as defined excludes seasonal residents.

### 3. Assessment

To present assessment information in a meaningful way it is necessary to present three sets of figures:

- 'Assessment used for 1969 Taxes': is the assessment upon which taxes have been imposed in 1969. In some cases municipalities collect school taxes for areas outside their jurisdiction. In such cases, this assessment is included and the amount noted.
- 'Provincial Equalized Taxable Assessment': is needed because assessment has been taken at varying percentages of market value. The Department of Municipal Affairs has accordingly established a system of equalization factors. These factors, when applied to taxable assessment, are designed to show the total assessment of the municipality had it been assessed at current market value. This device enables more meaningful comparisons to be made between municipalities.
- 'Analysis of 1968 Assessment as per the Return of Assessment': this data analyzes assessment by various classes of property within a municipality. There are minor discrepancies between the total assessment as per the Return of Assessment, and that of 'Assessment used for 1969 taxes'. The reason is that the figures included under the Return are based on information provided by Assessors immediately after the closing of the assessment roll. 'Return' figures are subsequently adjusted, as a result of appeals etc., prior to the striking of mill rates.

TABLE IV 1969 PROVINCIAL EQUALIZED TAXABLE ASSESSMENT (Page XXII) indicates aggregate equalized assessment of \$56.8 billion, up 14.9% over the year earlier

figure of \$49.5 billion. Changes in annual levels of equalized assessment are the product of increases, not only in the inventory of assessable property, due to economic development, but variations in market values reflecting demand and inflationary pressures, as well.

### PLATE 'D'

#### ANALYSIS OF PROVINCIAL EQUALIZED TAXABLE ASSESSMENT

PLATE 'D' shows the larger municipalities accounted for 66.2% of equalized assessment (versus 62.1% of population and 59.5% of households). The average equalized assessment per capita of \$8,151 is significantly increased by the Metropolitan Toronto Area. Excluding this area the average becomes \$6,289 per capita, a more descriptive figure.

The Township per capita figure might also be refined by removing certain large municipalities which have retained such status. Allowing for the 6 largest (with a collective figure of \$8,378), produces an average of \$7,754 for the other 545 Townships.

## ANALYSES OF TAX ROLL

PLATE 'E' reconciles local taxation in Ontario in 1969 by the 'Purposes' and 'Payers' of such Taxation.

### PLATE 'E'

#### ANALYSIS OF 1969 TAXATION

'Purposes of Taxation': comprises General Taxation and Levies For School Boards.

- (1) General Taxation: the levy applied to provide funds to meet the costs of the general municipal services. It includes the MUNICIPAL levy (including special area rates), the COUNTY levy and SPECIAL CHARGES.

The county levy is not applied to cities, separated towns and municipalities in the northern districts. As noted earlier in the Introduction, the upper tier metropolitan or regional entities levy on constituent municipalities.

**Special Charges** are principally charges for local improvements to specific Taxpayers; where a municipality levies sewer rates and drainage charges, they are also included;

**Miscellaneous Charges** are items placed on the Tax Roll for collection purposes. They include such items as utility arrears and fees for agricultural organizations. Miscellaneous Charges totalling some \$5.0 million have been added with Special Charges in arriving at the Gross Tax Roll (Before Adjustments), discussed below.

(2) Levies for SCHOOL BOARDS:

- (a) Levies for secondary school purposes which are imposed on the same tax payers as general taxation.
- (b) Levies for public school purposes and levies for separate school purposes which are imposed on taxpayers according to the school system supported.

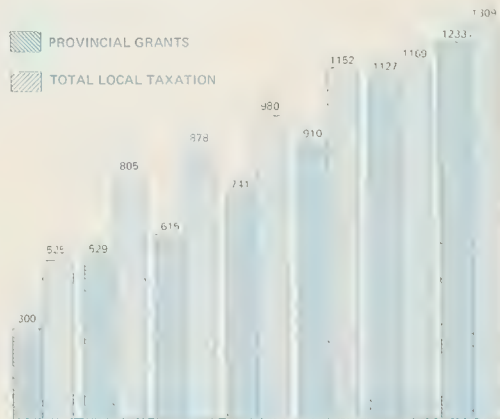

The items above produced a 'Gross Tax Roll (Before Adjustments)' of \$1,440.5 million in 1969. This figure — less the three items below — resulted in Total Taxation of \$1,309.4 million. In the order of their appearance in PLATE 'E,' these three items are:

- (a) Residential Property Tax Reduction Program: introduced in 1968 and continued in 1969, embodies certain key elements which should be noted. The program reduces the tax burdens paid by households. The reduction is shown on individual tax bills as a decrease in the amount of total taxes to be paid. However, for the purposes of financial reporting, (See Statements of Revenue), program payments are treated as a municipal grant from the province and taxation is presented on a "net" basis.
- (2) **Adjustments:** are the result of calculations made to meet provisions for minimum tax levies, and to meet provisions for maximum taxation on certain specialized properties. These items, which invariably involve relatively small amounts of money, on balance reduced the Tax Roll by \$5.4 million in 1969. 'Taxes Written Off' and 'Discounts Allowed' are not reported under adjustments but on the 'Statement of Expenditure'.
- (3) Miscellaneous charges which must also be deducted from the Tax Roll in arriving at the Total Taxation figure of \$1,309.4 million.

PLATE 'F' relates Provincial Grants to Total Taxation. Grants play a key role in enabling municipalities to provide a level and scope of services beyond those possible from local taxation. It can be seen that grants have risen from \$300 million in 1959 to \$1,233 million in 1969, more than a four fold increase. As the rate of increase has been noticeably greater than that of Taxation, grants as a percent of local Taxation have risen from 57.1% in 1959 to 94.2% in 1969.

PLATE 'F'

PROVINCIAL GRANTS IN RELATION  
TO TOTAL LOCAL TAXATION — \$ MILLIONS

The nature and amounts of such grants in both 1968 and 1969 follow

# PROVINCIAL GRANTS IN RELATION TO LOCAL TAXATION

	1968 Millions	1969 Millions
GRANTS: <sup>*</sup>		
A. TO LOCAL MUNICIPALITIES:		
Operating Grants	\$ 287.8	\$ 311.9
Payments in Lieu of Taxes	13.0	15.5
Capital grants	61.1	67.1
	361.9	394.5
B. TO COUNTIES: Operating and Capital grants	51.1	45.8
C. TO SCHOOL BOARDS	714.0	
TOTAL GRANTS <sup>**</sup>	\$1,127.0	\$1,233.2
TOTAL LOCAL TAXATION	\$1,169.4	\$1,309.4
TOTAL GRANTS AS A PERCENTAGE OF TOTAL LOCAL TAXATION	96.5%	94.2

<sup>\*</sup>Grants reported by local municipalities in the calendar years; education grants paid on a fiscal year basis, as reported by the Department of Education.

<sup>\*\*</sup>Total Grants exclude transfers to other entities such as local boards, Conservation Authorities, etc.

Total grants as a percentage of total taxation declined very slightly in 1969. Comments on this subject should be segregated into the three sectors, as per the above Table

Grants paid to local municipalities, relative to their expenditures, increased in importance. In 1969 grants accounted for 31% of current and capital expenditures. This was up from 31% in 1968.

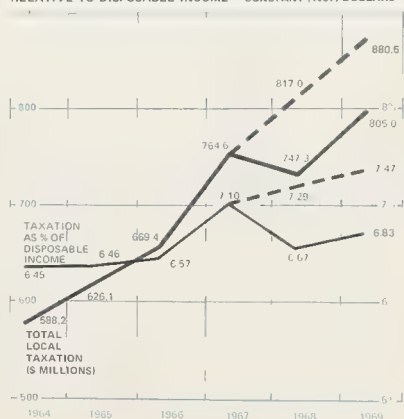

Grants reported paid to Counties in 1969 exclude payments to the Counties of Lincoln and Welland. Further, the 1968 data includes Carleton County, which was dissolved at the end of that year.

Transfers to School Boards rose in 1969/70 by a sizeable \$79 million over the fiscal year earlier. However, 'Contributions to Education', the biggest single item provided for by local Taxation, rose by \$105 million, or even more noticeably than did grants.

PLATE 'G' provides dramatic evidence of the impact of the introduction of the Residential Property Tax Reduction Program in 1968. Had this program not been introduced, and assuming all other considerations to be constant, then Taxation would have risen to \$880 million, or to 7.4% of Disposable Income (as indicated by the respective dash lines).

## PLATE 'G'

### TRENDS IN TOTAL LOCAL TAXATION RELATIVE TO DISPOSABLE INCOME - CONSTANT (1957) DOLLARS -

The drawback to a discussion of such trends is that it does not allow for the greatly increased demand, both volume-wise and quality-wise, for services provided by local taxation, increasingly backed up by grants, over the past two decades. In response to this demand, total current expenditures, including education contributions, rose from \$55 per capita in 1949 to \$155 (1949 Dollars). This is nearly a 3 fold rise! Yet taxation as a percent of disposable income rose only 1.8 times in that period. The priorities have been both numerous and sizeable, the role paid by grants most significant.

# PLATE 'H'

## SUMMARY STATEMENT OF REVENUE AND EXPENDITURE FOR LOCAL MUNICIPALITIES\* (MILLIONS \$)

	REVENUE			
	1968		1969	
<b>TAXATION</b>				
Residential & Farm	\$ 623.7	39.2%	\$ 708.4	39.8
Commercial & Industrial	367.5	23.1	405.1	22.7
Business	148.9	9.3	165.1	9.3
Special Charges	29.3	1.8	30.8	1.7
	<u>1,169.4</u>	<u>73.4</u>	<u>1,309.4</u>	<u>73.5</u>
<b>CONTRIBUTIONS FROM OTHER GOVERNMENTS</b>				
Payments in Lieu	47.4	3.0	54.7	3.1
Subsidies — Ontario				
Residential Property Tax Reduction	109.2	6.9	120.8	6.8
Unconditional	42.0	2.6	42.5	2.4
Roadways	69.4	4.4	72.5	4.1
General Welfare & Assistance				
to Children	46.8	2.9	50.8	2.8
All Other	20.4	1.3	25.2	1.4
	<u>335.2</u>	<u>21.1</u>	<u>366.5</u>	<u>20.6</u>
All Other Subsidies	5.0	.3	3.9	0.2
	<u>340.2</u>	<u>21.4</u>	<u>370.4</u>	<u>20.8</u>
<b>OTHER REVENUE</b>	82.4	5.2	7	5.7
<b>TOTAL REVENUE</b>	<u>\$1,592.0</u>	<u>100.0</u>		

# STATEMENTS OF REVENUE AND EXPENDITURE\*

PLATE 'H' summarizes the main components of revenue and expenditure for local municipalities in both 1968 and 1969. These main components, expressed as percentages of revenue, exhibit minor changes in 1969 versus the year earlier. However, as total expenditures rose more quickly than revenue, i.e. 12.9% versus 11.9%, a negligibly small deficit replaced the surplus in 1968.

	EXPENDITURE			
	1968		1969	
<b>GENERAL MUNICIPAL ACTIVITIES</b>				
General Government	\$ 85.0	5.3%	\$ 92.9	5.2
Protection to Persons and Property	184.0	11.6	213.2	12.0
Public Works	239.2	15.0	252.0	14.1
Sanitation and Waste Removal	104.3	6.5	113.6	6.4
Conservation of Health	30.9	1.9	32.0	1.8
Social & Family Services	82.1	5.2	97.1	5.5
Recreation and Community Services	87.5	5.5	100.2	5.6
Community Planning and Development	15.3	1.0	16.9	1.0
Financial Expenses (1)	16.8	1.1	20.1	1.1
Other (1)	45.5	2.8	52.3	2.9
	<u>890.6</u>	<u>55.9</u>	<u>990.3</u>	<u>55.6</u>
<b>COUNTY — SHARE OF EXPENDITURE</b>	50.3	3.2	51.3	2.9
<b>EDUCATION — LOCAL CONTRIBUTIONS</b>				
Public Schools	310.2	19.5	356.6	20.0
Separate	42.1	2.6	48.8	2.7
Secondary	284.3	17.9	334.7	18.8
Other (2)	2.3	0.1	1.3	0.1
	<u>638.9</u>	<u>40.1</u>	<u>741.4</u>	<u>41.6</u>
<b>TOTAL EXPENDITURE</b>	<u>\$1,579.8</u>	<u>99.2%</u>	<u>\$1,783.0</u>	<u>111.9%</u>
<b>SURPLUS (DEFICIT)</b>	<u>\$ 12.2</u>	<u>0.8%</u>		

\*Excludes Counties

(1) 1968 data adjusted to allow for the 1969 revision in summarization format.

(2) Includes \$1.0 Million contributions to schools for Retarded children in 1968. Such expenditures are reclassified under 'Secondary' in 1969.

A more involved inspection of 1969 revenue and expenditure items is best done in the format below which recognizes the variations possible within the main types of municipalities.

#### 1. Revenue

TABLE V. COMPARISONS OF ASSESSMENT, TAXATION FOR THE YEAR 1969 WITHIN MAIN MUNICIPAL GROUPS (Page XXIII) shows the contributions by various payers of Total Taxation in each municipal group. The 'Residential and Farm' payers contributed close to 50% of the total taxation within the larger municipalities, while for remaining municipalities the figures range from 54.2% to 73.1%

(The analyses of 1968 Assessment Used For 1969 Taxation show the portions of the total of such assessment within each main municipal group allocated to main 'payer' groups. Comparisons of such percentage allocations with respective tax contributions are not suggested, because of distorting pressures such as the split mill rate).

PLATE 'J', top half, shows the relative importance of the three main components of revenue within municipalities. Within the larger municipalities, using data in the SUMMARY, it can be calculated that 'Taxation' and 'Contributions From Other Governments' provided 75.0% and 19.1% of 'Total Revenue' respectively. In the other municipalities the ratios are somewhat different, 69.8% and 25.2% respectively. In neither group was 'Other Revenue' significant. (N.B. These revenue figures exclude grants to School Boards, Conservation Authorities etc.)

PLATE 'J', bottom half, shows the main components of revenue on a per capita basis. Again using the SUMMARY, it is calculated that per capita taxation is on average \$218 in larger municipalities versus \$134 in the others. Further, as the 'Residential and Farm Taxation' Per Capita was \$110 and \$86 respectively it follows that the remaining sources of Taxation produced \$108 per capita in the larger and \$48 per capita in the other municipalities.

#### 2. Expenditure

PLATE 'K', top half, relates the main types of expenditures to total revenue. In the larger municipalities, General Municipal Expenditures account for 58.8% or \$171 per capita. This compares with figures of 47.3% and \$91 per capita in the others. In this last set of calculations, 'Contributions to County' have been included. (Additional comment on General Municipal Expenditures appear following the conclusion of the discussion of Plate K).

Education Contributions as a percentage of total revenue show limited variation within the municipal groups. For larger municipalities it is calculated that such contributions produced 41.5% and \$120 per capita benchmarks. These compare with 41.8% and \$81 in the other municipalities. In both groups contributions for elementary school purposes (both Public and Separate) predominated — 23.2% or \$67 per capita in larger municipalities versus 21.7% of \$42 per capita in others.

TABLE VI GENERAL MUNICIPAL ACTIVITIES analyses the portions of total expenditure comprised by each sub-function for each municipal group. Also the average for all municipalities in 1969 is compared with 1968 data.

An analyses of General Municipal Expenditures can be summarized as follows:

- Every type of activity showed a dollar increase in 1969 outlays versus 1968. Collectively the rise was \$99.7 million, or 11.2%. Taxation rose 12.0% (Education contributions rose \$102.5 million, or 16.0%).
- Five municipal activities collectively accounted for \$67 million of the increase. As a group, the five increased 16.1%. Ranked by the dollar magnitude of the increases involved (with % increases also shown) these functions were: 'Protection to Persons and Property' \$29.2 million (15.7%); 'Social and Family Services' \$15.0 million (18.3%); 'Recreation and Community Services' \$12.7 million (14.5%); 'Other' 6.8 million (14.9%); and 'Financial' \$3.3 million (19.6%).
- The remaining 5 activities rose only \$32.7 or 7.0%. These were: 'Public Works' \$12.8 million (5.4%), 'Sanitation and Waste Removal' \$9.3 million (8.9%); 'General Government' \$7.9 million (9.3%); 'Community Planning and Development' \$1.6 million (10.4%); and 'Conservation of Health' \$1.1 million (3.6%).
- The faster growing activities indicate those areas where increased levels of service were deemed to be most needed by local officials. However, another element needs be kept in mind in reviewing results of the two groups. The faster growing groups, as a class, are more labor intensive, the slower groups more capital intensive. In a period of pronounced inflation the much higher portion of debt charges and other fixed costs would tend to restrict the rate of increase of the more slowly growing group.

In reviewing the results of Revenue Fund Operations it is to be remembered that in many instances deficiencies are planned so as to reduce a surplus accumulated at the start of the year. This and other considerations mitigate against a detailed analysis of surpluses and deficits in 1969 versus the patterns in 1968. Larger municipalities switched from a net surplus position of \$9.8 million in 1968 to a net deficit position of \$4.5 million. All other municipalities collectively showed a surplus of \$3.3 million, up from \$2.4 million in 1968.

TABLE VII SUMMARY STATEMENT OF REVENUE AND EXPENDITURE — ONTARIO MUNICIPALITIES (Page XXIV) shows results for both local and county municipalities combined. This Table is helpful for those readers wishing to see an aggregate picture, with a reasonable amount of detail, of annual revenue and expenditure levels for all municipalities.

It is to be noted that the counties of Lincoln and Welland are not included in this consolidation. However, contributions to these counties by supporting municipalities must be and are included. Thus the 'Excess of Revenue Over Expenditure', shown as \$1,620,494 in the Table, is overstated by \$1,811,935.

In view of the comments already made in respect of local municipalities, and the separate review of counties' operations (See Page XX), no further discussion of the Table is needed.

#### STATEMENTS OF SOURCE AND APPLICATION OF CAPITAL FUNDS

PLATE 'L' summarizes capital fund operations of local municipalities in both 1968 and 1969. Before a meaningful discussion of 1969 results can be presented the impact of the new school boards financing techniques must be appreciated.

In 1968 municipalities received some \$150 million in loans from The Ontario Education Capital Aid Corporation ('O.E.C.A.C.'). Municipalities borrowed this money on behalf of local school boards. (Municipalities borrowed exclusively from 'O.E.C.A.C.' for school purposes). In the same year they transferred \$143.6 million of such funds to these boards. The difference, \$150 million versus \$143.6 million is principally accounted for by the fact that the latter figure is net of previous advances.

In 1969, despite the creation of new school boards which will do the borrowing in future (by virtue of The Secondary Schools and Boards of Education Act R.S.O. 1960 Sec. 89 (1), as discussed in Volume 2 Page III) some \$80.3 million was nevertheless received by municipalities from 'O.E.C.A.C.' This activity represented the finalization of transactions started prior to 1969.

In turn, these municipalities turned over \$73.7 million to school boards in 1969. Excluding such 'O.E.C.A.C.' transactions in both years produces this revised statement (in millions of dollars):

XVI

		1968		1969	
SOURCES:	Long Term Liabilities issued	\$155.5	42.4%	\$149.9	42.7%
	Contributions-Other Governments	81.2	22.1	89.4	25.5
	Other	89.3	24.4	100.2	28.5
	Amount still to be permanently financed at year end	40.6	11.1	11.6	3.3
	TOTAL	\$366.6	100.0%	\$351.1	100.0%
APPLICATIONS:	Capital Expenditures	309.5	84.5	294.9	84.0
	Transfers	47.1	12.8	51.3	14.6
	Other	\$ 10.0	2.7%	\$ 4.9	1.4%

Details on PLATE 'L', other than school board financing items, are still valid, except that the 'Amount still to be permanently financed at year end' is revised to read \$40.6 million in 1968 and \$11.6 million in 1969, as shown above.

Sales of long term issues were a prime source of capital funds for municipalities and their enterprises in 1969. Sales to the public in the amount of \$128.0 million by Ontario municipalities represented about 27.3% of the \$400.3 million in municipal issues sold by Canadian municipalities in 1969. In 1969 the municipality of Metropolitan Toronto sold issues for a total par value of \$34.1 million. Of the 7 largest cities, 6 borrowed \$40.8 million from the public.

Contributions from other governments provided \$89.4 million, three-quarters of this amount coming from the province. More than \$55 million of provincial contributions were for roads.

All other sources provided over \$100 millions versus \$89.3 million in 1968, and increased in their relative importance. 'Contributions from the Revenue Fund' increased

Applications exceeded sources by \$11.6 million (\$5.1 million before excluding 'O.E.C.A.C.' transactions). This amount, shown as 'Amount still to be permanently financed at year end' in the above table, was provided for by temporary financing. The use of this short term financing technique was much less than in 1968.

Total			\$ 507.5	100.0 %		\$ 424.8	100.0 %		Total	\$ 507.5	100.0 %		\$ 424.8	100.0 %

Close to 85% of all capital funds discussed above was spent by municipalities on general municipal purposes. (The other 15% of funds primarily represents transfers to entities undertaking such activities, but under a 'Municipal Enterprise' structure.) Such expenditures were down nearly \$15 million, not quite 5%, from 1968 levels. However, 'Public Works' and 'Sanitation and Waste Removal', which accounted for 68% (of the 85%) of capital expenditures, were down by \$31 million, or 13.5%, from the year earlier. Two other functions, 'General Government' and 'Recreation and Community Services' were also down, collectively dropping \$1.9 million, or 6%. All other functions, with \$48.3 million expended thereon in 1968, were up sizeably, to the \$67 million level, in 1969.

'Sanitation and Waste Removal', which showed decreases in capital expenditures, also exhibited below average rates of growth in current fund outlays. Conversely, 'Protection to Persons and Property' and 'Social and Family Services', which showed increases in capital expenditures, exhibited above average increases in revenue fund outlays. (The remaining functions, accounting for less than 25% of total current and capital expenditures in 1969, showed more mixed patterns.)

Capital Transfers to 'Municipal Enterprises' and 'Others' increased by some 10% to \$51.3 million in 1969. These transactions represent financings undertaken by municipalities on behalf of other boards, commissions, etc. Such transfers exclude the \$73.7 million transferred to school boards for reasons discussed earlier.

It is noted that three major functions, 'General Government', 'Public Works' and

## REVENUE FUND BALANCE SHEETS

'Cash and Investments', the only asset group to show a decline, exhibited a sharp drop from \$90.1 million to \$70.5 million. This \$19.6 million drop can be attributed to the Metropolitan Toronto Area, with all other municipalities showing negligible change.

'Accounts Receivable' increased by \$19.1 million. Some one-third, or \$6 million, represented a rise in Receivables from the Province. This was not widely distributed amongst municipalities, rather it was represented by funds owing to Ottawa-Carleton at year end. Some two-thirds, or \$12 million, of the \$19 million increase represented a rise in funds owed by 'Local Boards and Other Funds'. However, this increase was largely to be found in the consolidated 'area totals' for metropolitan and regional areas.

'Taxes Receivable' rose from \$88.4 to \$99.5 million. (The figures are net of allowance for Uncollectable Taxes.) This increase appears spread throughout all municipalities as discussed under Tax Arrears.

Turning to liabilities, 'Bank Overdrafts and Temporary Loans' rose \$12.3 million. Here again much of this is attributable to the new Ottawa-Carleton Regional Municipality. (This municipality borrowed on the revenue fund for capital purposes. The \$10.9 million debenture financing is not reflected in our reports, as the cash was only received January 6, 1970.)

'Accounts Payable and Accrued Liabilities Local Boards and Other Funds' showed a drop of \$7.3 million, to the \$80.1 million level. As there was a \$10.1 million decline within the Metropolitan Toronto Area, other groups show a commensurate increase; 'All Other' Accounts Payable and Accrued Liabilities coincidentally also show a drop of \$7.3 million. Here again, this decline is more than accounted for by the \$8.6 million drop within the Metropolitan Toronto Area.

'Other Liabilities (which include overlevies and deferred revenue, etc.) rose by \$13.0 million, to \$32.3 million, with increases noted within the Metropolitan Toronto Area (\$7.5 million), and other larger municipalities.

Reserves were little changed at \$73.9 million, up only \$3.6 million. All groups, except Towns, were included in this rise.

An accumulated surplus of \$36.8 million existed at year end. The decrease of \$1.7 million is greater than the \$1.3 million aggregate deficit on 1969 operations. Thus a downward restatement of the 1968 aggregate surplus of \$12.2 million, by some \$4 million, is indicated.

## ANALYSES OF TAX ARREARS

Tax arrears are analysed by year, net of penalties and interest which are shown as a separate entity. This reflects the true arrears position of the receivables, unclouded by penalties and interest, the rates of which vary from municipality to municipality.

XVIII

Total Arrears stood at \$107.7 million, up 12.0% from a year earlier. As the Total Tax Roll also rose 12.0%, total arrears remained unchanged from 1968, at 8.2% of the Roll

PLATE 'M' shows considerable variations exist as regards arrears related to tax rolls. This is, in part, due to variations in both billing and collection policies and procedures. These variations are also implicit in the variations within TABLE VIII CURRENT COLLECTIONS AS A PERCENTAGE OF TOTAL TAX ROLL (Page XXIV). It is to be noted, however, that the current collections as a percentage of the tax roll has dropped in all municipal groups.

## PLATE 'M'

### ANALYSIS OF ARREARS, YEAR END 1969

#### ARREARS AS A PERCENTAGE OF TOTAL TAX ROLL

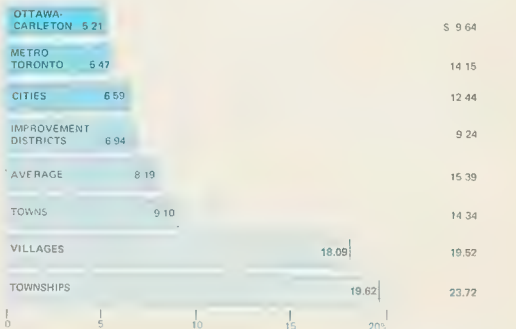

PLATE 'M' also shows Arrears Per Capita. The average of \$15.39 is up 10.5% from the 1968 figure of \$13.92. This widely-referred-to criterion can be influenced by a number of factors such as levels of taxation, the make-up of the tax paying base, unresolved legal actions, etc.

The Analyses of Arrears further shows.

\$8.2 million had been established as 'Allowances For Uncollectable Taxes' at year end 1969. This represents an increase of nearly \$500,000 from the previous year end. In contrast to a rise of \$575,000 in the Metropolitan Toronto Area, all other groups showed a decline in this item.

'Property Acquired For Taxes (Gross)' at year end stood at \$2.6 million (or 2.4% of Total Arrears). The dollar increase in this item was negligible. However, as this item represents the combination of acquisitions less disposals, it is difficult to elaborate further

Revenue from 'Penalties and Interest On Taxes', nearly \$8.2 million in 1969, showed negligible change from 1968. In that year, and more so in 1969, such revenue exceeded the sum of the expenditure items 'Interest on Temporary Borrowings' and 'Discount on Taxes'. This favourable relationship existed within all municipal groups, except the Ottawa-Carleton Regional Area.

'Provision for Allowances and Reserves' charged against the revenue fund was \$13.1 million in 1969, well up from the \$9.3 million in 1968. This increase was evident in all groups of municipalities, except Towns and Villages.

#### CAPITAL FUND BALANCE SHEETS

'Current Liabilities' again, as seen in 1968, sizeably exceeded 'Current Assets', by some \$148.1 million. However, this deficit liquid position had increased by only \$1.5 million, by year end 1969 versus the year earlier. This figure represents a \$2.3 million increase in the Metropolitan Toronto Area liquidity deficit, offset by the \$8 million improvement in the net deficit of all other municipalities.

'Capital Outlays To Be Recovered' indicates the amount of capital outlays to be recouped in future years, whether it be from general municipal tax payers, municipal enterprises or other sources. To the extent that they are to be rated for or recovered in future years, transfers to municipal enterprises, loans for tile drainage, capitalized deficits, grants to universities, hospitals, etc. are included within 'Capital Outlays To Be Recovered'. As recovery is effected, the account balance is accordingly reduced.

In addition to the points already made under 'Statements of Source And Application Of Capital Funds', the comments following in respect of Net Long Term Liabilities and Debt Charges further help in understanding Capital Fund Balance Sheets.

#### ANALYSES OF NET LONG TERM LIABILITIES AND DEBT CHARGES

'Net Long Term Liabilities' refers to the effective debt position of a local municipality. This term is to be distinguished from the nominal debt position indicated by the expression 'Long Term Liabilities'.

'Long Term Liabilities' are adjusted to reflect debt obligations 'Assumed By' or 'From' other municipalities and to allow for 'Sinking Fund Requirements and O.W.R.C. Debt Retirement' in arriving at 'Net Long Term Liabilities'. (Sinking Fund Debentures require annual contributions to retire the issue, while repayment of O.W.R.C. issues are provided for by contributions to a debt retirement fund.) Net Long Term Liabilities for local municipalities stood at \$1,933.7 million at year end 1969. This figure includes \$357.4 million School Board Debt. (See Page XXXVI, Volume 1 for details).

Removing such School Board Debt produces a net position of \$1,576.3 million. The Capital Fund Balance sheet indicates \$1,152.7 million was attributable to 'General Municipal Activities' and the balance, \$423.6 million accounted for by 'Municipal Enterprises'.

The changes in Net Long Term Liabilities during the year are presented below:

	Millions
Net Long Term Liabilities, December 31, 1968	\$2,488.3*
Less Education Debt (Other than in Metropolitan & Regional areas)	618.3
Net Long Term Liabilities, January 1, 1969	1,870.0
Add: Debt Issued in 1969 (Net of issues for school boards other than in Metropolitan & Regional areas)	191.8
Less: Principal Repayments in 1969 (Including those for education debt in Metropolitan & Regional areas)	128.1
Net Long Term Liabilities December 31, 1969	\$1,933.7

\* The difference between this and the figure of \$2,510.7 million, published in the 1968 SUMMARY OF FINANCIAL REPORTS OF MUNICIPALITIES, \$22.4 million, or less than 1%, is accounted for by further refinements in reporting by municipalities.

PLATE 'N' left half, shows total net long term liabilities as a percent of equalized assessment. This measure is useful in that it relates debt to a municipality's tax base. It is to be noted that when school board debt charges are excluded from the Metropolitan Toronto and Ottawa-Carleton Regional Areas, the ratios become 3.66% and 3.84% respectively, and the Average drops to 2.78%.

## PLATE 'N' ANALYSIS OF DEBT, YEAR END 1969

OBLIGATION BY FUNCTION AS A PERCENTAGE  
OF EQUALIZED ASSESSMENT

NET LONG TERM  
LIABILITIES  
PER CAPITA

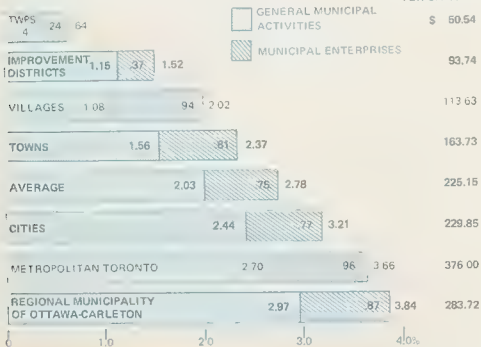

PLATE 'N', also shows net long term liabilities per capita. Exclusion of education debt reduces the figures in the Metropolitan Toronto Area and the Ottawa-Carleton Area to \$376.00 and \$283.74 respectively. The Average drops to \$225.15.

XX

It must be noted that 'Net Long Term Liabilities Per Capita' is limited in its usefulness as a comparative indicator. It does not describe the nature of the underlying liabilities, i.e. from whom will it be recovered, over what period of time, involving what rate of interest? Nor does it allow for any 'Balance At End of Year Not Permanently Financed' as shown on the Statement of Source and Application of Capital Funds, which represents a further debt load in the offing.

To help offset the deficiencies of this debt indicator, another criteria, 'Debt Charges as a Percent of Total Revenue' has been introduced. The Summary indicates these factors range between 3.81% for Townships, and 20.00% for the Metropolitan Toronto Area. Here again, the adjustment for education debt produces these ratios: Metropolitan Toronto Area, 14.31%; Ottawa-Carleton Regional Area, 13.81%; and an Average of 11.63%.

All these debt burden indicators somewhat understate the case with regards to municipalities within county administrative units, as these factors exclude county debt.

## COUNTIES

County municipalities have the same reporting structure as those of local municipalities. The presentation format for counties is, therefore, as close as possible to that for other municipalities. Any differences are due to the different structure of counties and — to a lesser degree — to the difference in the nature of their activities.

For meaningful comparisons, it has been necessary to delete 1968 data in certain instances, for the Counties of Carleton (due to its dissolution December 31, 1968) as well as for the Counties of Lincoln and Welland (due to the absence of 1969 data).

The population of municipalities within county administrative units, at year end 1969, was 2,236,780 up 37,260, or 1.7%, over 1968. This compares with 2.45% for the province as a whole. Townships and Improvement Districts showed a growth factor of 1.3% versus 2.1% for Towns and Villages. An analysis of age of population within county administrative units has been introduced.

As a matter of convenience, the populations of cities and separated towns situated geographically within a county have been added to those of its towns, townships and villages.

The 'Provincial Equalized Taxable Assessment' figures shown are merely the addition of such figures for the constituent local municipalities, as shown elsewhere in the SUMMARY. These figures were not used by counties in their calculations, nor are such figures reported in counties' financial statements. Such Provincial Equalized Taxable Assessment was \$16.9 billion in 1969 versus \$14.5 billion in 1968.

Total Revenue in 1969, at \$94.1 million versus \$89.0, showed an increase of 5.7%. Taxation Levy on Local municipalities, \$49.5 million as reported by counties was up some 6.0% over 1968. Contribution from the Province, the other very important source of revenue, amounted to \$39.8 million, up 6.5% over the year earlier. Roadways grants, at \$33.5 million (\$32.6 million in 1968), maintained their position as the paramount transfer.

Grants paid to counties as a percentage of the current and capital expenditures for general municipal activities have ranged between 36.8% and 44.2% in the 1965-1969 period.

Expenditures on the current account totalled some \$93 million up 6.9% over 1968. The variation in the rate of increase of the most important functions can be seen in the following summary:

'Public Works'	\$56.8 million (61.1% of Total)	up	1.4%
'Social & Family Services'	13.4 " (14.4 " " )	up	33.9
'General Government'	10.4 " (11.2 " " )	up	14.8
'Conservation of Helath'	7.0 " ( 7.5 " " )	up	9.2
All Other	5.4 " ( 5.8 " " )	down	2.1
	<u>\$93.0 " (100.0 " " )</u>	up	6.9%

For all reporting counties, revenues exceeded expenditures by \$1.1 million compared with \$2.0 million in 1968. In 1969, 21 counties together produced an aggregate surplus of \$2.3 million with 2 accounting for slightly more than half thereof. Nearly two-thirds of the total deficits of \$1.2 million were accounted for by three counties.

Capital Fund activities were somewhat more sizeable in 1969. Sources of capital funds totalled \$28.2 million. The province accounted for \$11.9 million (42.2% of sources) principally via grants in the amount of \$7.4 million.

In 1968 the comparable figure for provincial 'Sources' was also \$11.9 million. Debt issued to the 'Public' was \$4.7 million versus \$3.8 million a year earlier.

Capital Expenditures for General Municipal Activities at \$20.7 million, accounted for nearly three-quarters of all applications of capital funds. Such expenditures, dollar-volume wise, were virtually unchanged from 1968. However, the prime expenditure, 'Public Works' rose to \$16.5 million from \$14.0 million. 'Transfers For Capital Purposes', some \$5.3 million in 1969 were concerned with both hospital and homes for the aged, versus the \$2.7 million in 1968 which was all turned over to school boards. The last important use of funds was to reduce the net amount to be permanently financed by \$1.9 million, to the \$.4 million level.

#### CONCLUDING COMMENT

It is hoped that the new format and information in this publication will provide a better service to all those interested in the field of municipal finance. The Department would welcome constructive criticisms of the presentation and suggestions for its improvement. Enquiries regarding the contents should be made to the Municipal Finance Branch, Department of Municipal Affairs, 801 Bay Street, Toronto.

# summary of financial reports of municipalities

## VOLUME 2

source and application of capital funds

balance sheets

analyses of arrears

analyses of debt

printed under the authority of THE HONOURABLE W. DARCY McKEOUGH, minister of municipal affairs DEPARTMENT OF MUNICIPAL AFFAIRS • ONTARIO

printed and published by WILLIAM KINMOND, queen's printer and publisher

price \$5.00 per set (volumes 1 and 2)

## INTRODUCTION

This is the second volume of the 1969 SUMMARY OF FINANCIAL REPORTS OF MUNICIPALITIES. The publication has been divided into two parts so that accurate and meaningful information might be presented in a conveniently sized format.

A Tabular Summary precedes the data in this volume. The Commentary and complete Summary appear in Volume I. The remainder of this Introduction is confined to certain modifications in reporting procedures and summarization techniques affecting data which follows herein.

### STATEMENTS OF SOURCE AND APPLICATION OF CAPITAL FUNDS

Details on the activities of the Province as a source of capital funds have expanded. On the other hand, "Transfers For Capital Purposes - School Boards" (an application) now combines "Proceeds of Net Long Term Liabilities Transferred to Public" and "... to Secondary" School Boards. This reflects the changes in School Board structures referred to in the comments on the Capital Fund Balance Sheets.

### REVENUE FUND BALANCE SHEETS

"Cash" and "Investments" have been combined. The often minor accounts receivable from "Canada" and from "Municipalities" have been merged with the more sizable "Other" receivables. Similarly, "Accounts Payable" and "Accrued Liabilities" have been compacted. Data on tax arrears now appear under "Analyses of Arrears."

### ANALYSES OF ARREARS

Only one item has been changed from the 1968 format. "Property Acquired For Taxes" is now shown on a "gross" basis, i.e. before the deduction of any "Allowance for Loss On Sale of Such Properties." (1968 data was shown "net", or, after the deduction of any such allowance.) The analyses have been expanded to show relevant items from the 1969 Revenue and Expenditure

Statements which are, to a certain extent, indicators of financial management policies.

### CAPITAL FUND BALANCE SHEETS

Current asset and current liability data has been condensed into the same pattern as that adopted for the Revenue Fund Balance Sheet. This provides a more concise presentation of the liquid portion of Capital Funds. It will be noticed that amongst non-liquid items, "Fixed Assets" and "Equity In Fixed Assets" no longer appear. Fixed asset figures were not comparable between municipalities. Such figures could represent the historical cost, a nominal value, the unpaid balance of debt thereon, or a combination thereof. Thus the emphasis is now on the long term liability position.

Debt originally issued by municipalities for school purposes has been assumed by the new School Boards effective with their creation on January 1, 1969. (The exception being in the Metropolitan Toronto and Ottawa-Carleton Regional Areas, as noted in the tabular data.) The debt no longer appears on municipal balance sheets, since the School Boards have now assumed the liability for interest and capital repayment. However, the School Boards make these payments to the respective municipalities, which remain of course, legally responsible to the bondholders. Public and Secondary School Boards are now responsible for the issuance of their own debt. (The Secondary Schools and Boards of Education Act R.S.O. 1960, Sec. 89 (1).

### ANALYSES OF NET LONG TERM LIABILITIES AND DEBT CHARGES

The education debts discussed above are included under the heading "Incurred by the Municipality" but then removed under "Assumed by Others" within the "Reconciliation of Net Long Term Liabilities." The last change this year is the inclusion of "Debt Charges as Percent of Total Revenue." This indicator facilitates the comparison of debt positions between municipalities.

## OTTAWA-CARLETON REGIONAL AREA

P1 - Preliminary data. A - Former County of Carleton long term liabilities. B - Includes net long term liabilities for Sanitary Sewer System (\$372,037) and Water Systems (\$160,639) assumed from area municipalities. C - Includes \$40,806,453 School Board debt. D - Includes \$803,500 School Board debt. E - Includes \$57,900 School Board debt. F - Includes \$41,667,851 School Board debt. G - Ottawa \$130.2 represented by Schools. H - Vanier \$34.10 represented by Schools. J - Rockcliffe Park \$25.73 represented by Schools. K - Regional Area \$94.80 represented by Schools. L - Ottawa 1.76% represented by Schools. M - Vanier 0.98% represented by Schools. N - Rockcliffe Park 0.15% represented by Schools. O - Regional Area 1.28% represented by Schools. P - Includes \$2,483,407 principal, \$2,284,789 interest School debt charges. Q - Includes \$44,500 principal, \$53,388 interest School debt charges. R - Includes \$11,800 principal, \$3,641 interest School debt charges. S - Includes \$2,541,707 principal, \$2,341,818 interest School debt charges. T - Ottawa \$53 represented by Schools. U - Vanier 3.26% represented by Schools. V - Rockcliffe Park 2.20% represented by Schools. W - Regional Area 3.92% represented by Schools.
